😃 Product Requirements

Features

- If it's something to find oscar nominated movies I guess I'd like to be able to search for my favorite films and get

other info like reviews, and suggested content based on similarity.

Filters

- I'd like to filter by ratings and maybe filter by director and genres while searching

Additional information

- Maybe a brief description and rating

Main Page Requirements

- It should show the winners through the years so you can scroll through and the main search bar should be very visible.

Accessible Features

- I like websites that are in dark-mode
